### Coronal

The principals of Distributed Generation Solutions (DGS) and Korridor Capital have come together to form a Plasma Gasification Consulting/Development company called "**Coronal**" LLC. The mission of **Coronal** is to provide local units of government and other customers with sustainable, waste-to-energy Plasma Gasification solutions. Now that municipal solid waste (MSW) is considered a renewable resource, this feedstock has a value ("Urban Gold"). We propose to deploy Plasma Gasification solutions in locations throughout North American and the World.
