

GRASS FINISHED BEEF WORKSHOP

At
Solway Town Hall

4029 Munger Shaw Rd,
Cloquet, MN 55720

Date: Thursday, April 21, 2011

Time: 5:00pm—9:00pm

"Grass finished beef" is meat that has been produced by feeding beef cattle high quality forage from start to finish. Several factors are stimulating consumers to choose grass based livestock products. This presents an excellent opportunity for Northern Minnesota livestock producers to increase overall farm profitability, provide environmental benefits to the land, and to provide healthy food products to consumers.

Producing grass finished beef requires careful management of forage and livestock. Attend this event and learn from experts how to raise and produce grass finished beef!

Join us for great presentations and dinner!

4:45—5:00 *Sign In/Register*
